Durban, KZN | Willing to Relocate | +27 83 594 3992 | lungzzondi22@gmail.com | <https://www.linkedin.com/in/luhzondi>

PROFESSIONAL SUMMARY

Microsoft-certified Junior IT Technician with MSP experience providing first-line technical support across Microsoft 365, Office applications, Windows endpoints, user accounts, printers, connectivity issues, remote support, ticket management, and general IT operations. Experienced using Autotask PSA, Datto RMM, IT Glue, Microsoft 365 Admin Center, Microsoft Defender, and Barracuda Email Security to troubleshoot issues, document fixes, support users, and escalate where needed. Also building practical home lab experience with Active Directory, Windows Server, DNS, DHCP, Group Policy, SonicWall firewall administration, Azure/Microsoft Entra hybrid identity, and Intune device management.

WORK EXPERIENCE

AtomGate

April 2025–Present

Junior IT Technician

- Provide first-line MSP support for users across Microsoft 365, Entra ID, Windows endpoints, printers and connectivity, resolving most issues without escalation.
- Administer Microsoft 365 and Entra ID environments: perform user onboarding/offboarding, licence assignments, mailbox permissions, MFA support, message trace and mail-flow troubleshooting.
- Manage tickets in Autotask PSA, maintaining client updates, documenting fixes, escalating complex incidents, and ensuring SLA compliance.
- Investigate suspicious emails and delivery issues using Barracuda, Microsoft Defender, message trace, mailbox rule reviews, MX/DMARC checks, DNS/WHOIS lookups and WHOIS/nameserver investigations.
- Develop PowerShell and Microsoft Graph scripts to audit MFA registration across tenants; export Excel reports for senior engineers and management.
- Support client endpoints and infrastructure via Datto RMM and IT Glue, including remote software deployment, patching, endpoint troubleshooting, and assistance with access-control and firewall tasks.

TECHNICAL PROJECTS

Home Lab Infrastructure Project

- Built a Windows Server lab using the lzondi.lab Active Directory domain with DC01 domain controller, domain-joined clients, DNS, DHCP, Group Policy and role-based access controls, strengthening hands-on familiarity with core infrastructure services.
- Configured a virtual SonicWall NSv firewall as a perimeter gateway and tested firewall rules, networking, LDAP integration, DNS resolution and Group Policy troubleshooting to simulate real-world perimeter security and network segmentation scenarios.
- Developed an Azure/Microsoft Entra lab using DC01-ENTRA, SYNC01 and CL01-Entra integrating on-premises AD with Microsoft 365; practised Entra Connect (Password Hash Sync and OU filtering), Hybrid Entra Join, Intune enrolment and foundational Azure networking/security tasks.

EDUCATION

University of KwaZulu-Natal

2021–2024

Bachelor's Degree in Computer Science and Information Technology

CERTIFICATIONS

- Microsoft 365 Certified: Administrator (MS-102) | **2025**
- Microsoft Certified: Security Operations Analyst (SC-200) | **2025**
- Microsoft Certified: Identity and Access Administrator (SC-300) | **2025**
- Microsoft 365 Certified: Fundamentals (MS-900) | **2025**
- Kaseya Certified: IT Glue, Datto RMM & Autotask PSA | **2025**

TECHNICAL SKILLS

- **Cloud, Email & Security:** Microsoft M365, Azure, Entra ID, Exchange Online, Barracuda, MFA, message trace, mail-flow troubleshooting, mailbox rule, suspicious email investigation, MX/DMARC, DNS/WHOIS lookups
- **Infrastructure, Networking & Hybrid Identity:** Windows Server, Active Directory, DNS/DHCP, Entra Connect, Password Hash Sync, 365 tenant integration, Remote Desktop, Hyper-V, VMware, SonicWall NSv/NetExtender
- **Tools, Scripting & Reporting:** PowerShell, Microsoft Graph SDK, Autotask PSA, Datto RMM, IT Glue, Excel reporting, Chocolatey, Office Deployment Tool
